

Nuclear Gauge Safety Training Plus Hazmat Training Course

This course is for nuclear moisture density gauge operators. This course provides the certification required to operate and transport nuclear moisture density gauges. A quiz will be given at the end and a certificate issued with a passing score. The program will be presented by Robyn Myers, Radiation Safety Officer of Troxler Electronic Laboratories, Inc. **This course offers 6 hours of NJSAT credit.**

Topics covered include:

- Radiation safety fundamentals and principles
- Regulatory requirements
- Portable gauge theory, design and operation
- Gauge maintenance and troubleshooting
- Operating, emergency, maintenance and transportation procedures
- Leak testing
- Storing, packaging and transporting gauges
